

TRICK to find PREORDER, POSTORDER

70

→ INORDER traversal:

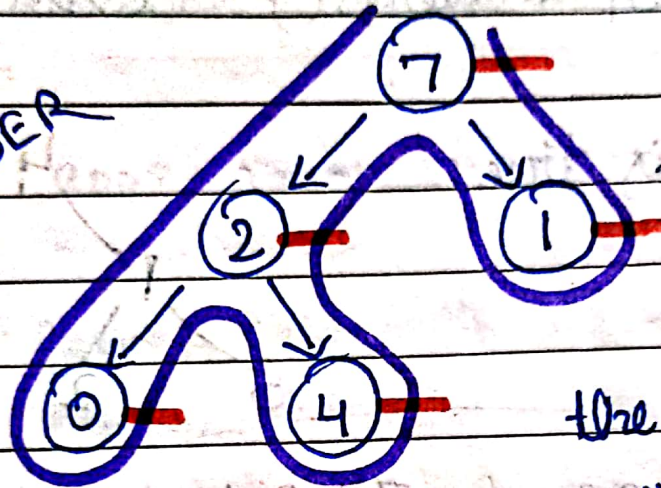

Make lines
on the right
side of nodes.

And start trav-
elling it from the
right side of
Root node.

=) 7 2 0 4 1

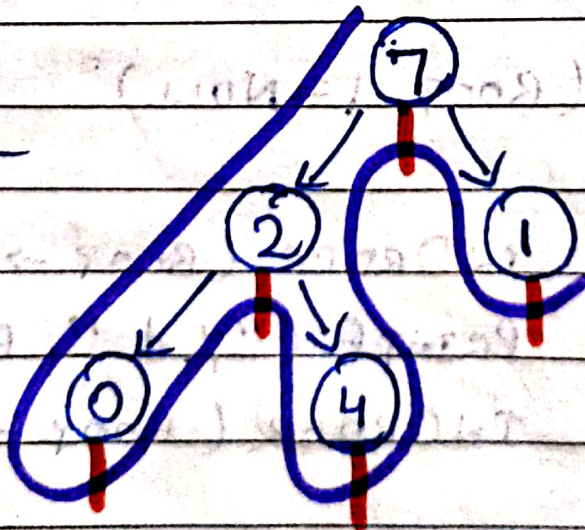

POST ORDER

Make lines on the left side of nodes and start travelling it from the right side of root node.

$\Rightarrow 0\ 4\ 2\ 1\ 7$

IN ORDER

Make lines on the bottom of nodes and start travelling it from the right side of root node.

$\Rightarrow 0\ 2\ 4\ 7\ 1$
